

SERVICE BULLETIN No.09/2015

- 1. Affected models:** Rescue system MAGNUM 601 S-LSA
- 2. Reason:** Inform users about change of operating limits for RS Magnum 601 - S-LSA category
- 3. Required action:** The rescue system Magnum 601 is tested in accordance with ASTM F2316-08 at a speed of 320 km/h and weight of 760 kg.

While using the coefficients from this standard the maximum operating values are:

Maximum operating weight 608 kg
Maximum operating speed 290,9 km/h

Due to the fact that speed is unmeasurable to decimal places, we use rounded value for the maximum operating speed of 291 km/h.
- 4. Notification:** Notice for users in writing form by publication of the bulletin on website of company Stratos 07 (<http://www.stratos07.cz/en/bulletiny>)
- 5. Date effective:** from 12th October 2015
- 6. Date and place of issue:** 12th October 2015, Prague
